PROFESSIONAL SUMMARY

Computer Science graduate specializing in Web Development, Generative AI, and AI/ML solutions. Experienced in MERN stack development, building responsive and scalable web applications, and developing AI-powered tools. Worked on multiple real-world websites and modern web applications using Firebase, MongoDB, JavaScript, and AI-assisted development tools.

TECHNICAL SKILLS

Languages:	HTML5, CSS3, JavaScript, Python
Frontend:	React.js, Next.js, Tailwind CSS, Vite
Backend:	Node.js, Express.js, REST APIs
Database:	MongoDB, Firebase
Integrations:	Generative AI, Chatbot Development, Streamlit, Hugging Face
DevOps/Cloud:	AWS, Docker, Vercel, Web Deployment Platforms
Tools:	Git, GitHub, VS Code, Cursor AI, Modern IDEs
Soft Skills:	Agile methodology, Architecture, AI-Assisted Development, Vibe Coding

WORK EXPERIENCE

ICMS School System

IT Instructor | Sep 2026 - Present

- Instruct students in information technology fundamentals and modern software development practices.
- Develop curriculum focused on programming logic, web development, and problem-solving.

Saylani Tech

Software Developer | Sep 2026 - Present

- Develop and maintain scalable, full-stack web applications utilizing the MERN stack.
- Architect and optimize system logic to support technical initiatives and user-facing platforms.

Zoue Tech

Web Developer Intern | March 2026 - September 2026

- Worked on real-world scalable web applications and responsive websites.
- Collaborated on frontend and backend integration using modern JavaScript frameworks.

Bank of Khyber

Intern | Nov 2024

- Assisted with internal technical workflows and supported IT management operations.

PROJECTS

Hunar - Home Services Software

- Architected a centralized software platform that connects customers and workers for localized home services.
- Engineered the database schema and booking workflow to streamline the service management process.

SMIT Bootcamp Management System

- Designed and built a comprehensive learning management portal for students and administrators.
- Implemented secure authentication and dynamic user profile workflows. [Project link](#)

Pollify - MERN Stack Web App

- Built a scalable, real-time polling application using the MERN stack for seamless data synchronization.
- Managed secure routing, environment variables, and automated deployment pipelines. [Project link](#)

InterviewIQ - AI-powered interview preparation platform

- Built an AI-powered interview preparation platform utilizing Generative AI and AI/ML models.

AI Chatbot & NotesGenAI

- Developed an intelligent chatbot integrating multiple AI tools for dynamic conversational workflows.
- Created an AI-based automated notes generation tool.

Hotel Management System

- Developed a fully functional web-based hotel booking and management system.

EDUCATION

BS COMPUTER SCIENCE

Bacha Khan University | 2021-2025

CERTIFICATIONS

- MERN Stack Development (SMIT)
- Generative AI & AI/ML (HEC)
- Artificial Intelligence (Arfa Karim Technology Incubator)
